

How to download and install MetaTrader 5

MT5 download and installation instructions

Blue Square FX's MT5 trading platform can be [downloaded directly from the website](#) in just a few minutes. Follow these simple instructions to get started:

- On the Blue Square FX website, navigate to **Platforms**, and click on the 'Download Desktop Version' button.
- Once the download is complete, open your Downloads folder and launch the installer.
- Read the license agreement and then click **Next** to begin the installation. After a successful installation, MT5 will launch.
- Click **File** then **Login to Trade Account**. Fill in your Blue Square FX Account ID, password and choose a server. Click Login to complete the process.

Once the download is completed, data will automatically begin to update and the price charts will be activated.
